Heart Full Of Love *Lyric by: Martin H. Samuel*

sometimes the world can be
a rough place a tough place
a day won't go by
when you don't feel like crying

sometimes the world can be
a bad place a sad place
a night won't go by
when you don't feel so lonely for a

heart full of love so hard to find
heart full of love so hard to deny
heart full of love so hold to hold on to

sometimes the world can be
an old place a cold place
a time won't go by
when you don't feel like screaming

sometimes the world can be
a blind place unkind place
no one around
you feel like the only

heart full of love so hard to find
heart full of love so hard to deny
heart full of love so hold to hold on to

somewhere in the world there's someone like you
some special someone they're searching too ~ for a

heart full of love so hard to find
heart full of love so hard to deny
heart full of love so hold to hold on to

heart full of love
heart full of love
heart full of love
heart full of love
heart full of love
heart full of love
heart full of love
heart full of love
heart full of love
