

My Heart Is Set On You

Lyric by: Martin H. Samuel

got to do something to win you over
yeah I've got to make you mine
kiss and caress you and give you the best
of my loving all of the time

gonna find a good way to play the game
lady luck please bless the dice
slip the aces in my hand
make the fortunes smile and break the ice

give me a break but don't break my heart
don't strip me rip me or tear me apart
just cover me with your sweet love
when it comes to you I can't get enough

my heart is set set on you
no one comes close no one else will do
my heart is set set on you
will you won't you love me too

I got to give you more than I gave before
to keep you coming back to me
a word or a sign always remind you
your loving is all I need

gonna storm the walls of your defenses
throw all caution to the wind
hold you hostage in my heart
'til the fortress falls and you take me in

come on and take me but don't take me down
don't push me shove me or run me around
please cover me with your sweet sweet love
when it comes to you I can't get enough

my heart is set set on you
no one comes close no one else will do
my heart is set set on you
do you don't you want me too

my heart is set set on you
no one comes close no one else will do
my heart is set set on you
will you won't you love me too

my heart is set set on you
do you want me do you need me set on you
my heart is set set on you
do you do you do you don't you want me too
